Dear maintainer,

package psborrow2_0.0.3.2.tar.gz does not pass the incoming checks automatically, please see the following pre-tests:

Windows: <https://win-builder.r-project.org/incoming_pretest/psborrow2_0.0.3.2_20240321_194910/Windows/00check.log>

Status: 4 NOTEs

Debian: <https://win-builder.r-project.org/incoming_pretest/psborrow2_0.0.3.2_20240321_194910/Debian/00check.log>

Status: 4 NOTEs

Please fix all problems and resubmit a fixed version via the webform.

If you are not sure how to fix the problems shown, please ask for help on the R-package-devel mailing list:

<<https://stat.ethz.ch/mailman/listinfo/r-package-devel>>

If you are fairly certain the rejection is a false positive, please reply-all to this message and explain.

More details are given in the directory:

<https://win-builder.r-project.org/incoming_pretest/psborrow2_0.0.3.2_20240321_194910/>

The files will be removed after roughly 7 days.

No strong reverse dependencies to be checked.

Best regards,

CRAN teams' auto-check service

Flavor: r-devel-windows-x86_64

Check: CRAN incoming feasibility, Result: NOTE
